vershig this decision holds that the other members of the peol might have been held responsible if Lathrop, Haskins & Co. had performed its part of the contract. But the latter firm, according to Samuel Insuli, chairman of the stock or paid for it.

Another opinion in the same case is found in the report of Stanley W. Dexter, special master in the bankruptey proceedings. Dexter denies the request correctly proceedings. Dexter denies the request kins & Co. for the return of stock which they had purchased before the firm falled and on which they had made part pays the contract. His reason for the denial is that the customers of the denial is that the customers centered into the bankruptey proceedings as general creditors in the first state and the customers centered into the bankruptey proceedings as general creditors in the first state and the customers of the denial is that the customers of the correctly proceedings as general creditors in the first place and thus put themselves on the customers instead of filing their claims as general creditors had put in a relaim as general creditors had put in a relaim for their stock hefore four years had classed their request would have been more and all but 11 states.

The Guanajuato Fower and Electric Company, according to reports received here vesterday, is now being operated almost entirely by Mexicans, all of the American employees having been sent across the border. The company is the only large Mexican public utility concern controlled entirely by American capital. Assistant Manager Kean, an Englishman, is now in charge and business is progressing pretty much the same as usual. The last report of earnings was for April and these showed that Guanajuato Power and Electric earned \$10,354 over operating charges, maintenance, fixed charges and other income deductions for the month, aggregating \$53,613, while the Central Mexico Light and Power Company for the month had a deficit of \$482 after providing for operating expenses, maintenance, fixed charges and other income deductions, amounting in all to \$52,271.

This will probably mean a loss of \$103.485 to the creditors of Lathrop, Haskins & Co.

When the latter firm failed to take up the stock the brokers, through whom it was ordered, sold it at a loss of \$147.633.

DENY BANKING LAW VIOLATION.

Receivers for H. B. Claffin Company Reply to Morchant's Suit. Joseph B. Martindale and F. A. Juliliard, receivers for the H. B. Claffin Company, denied emphatically yesterday that the concern had been engaged in a private banking business in violation of the State banking law. The occasion for the denial was the filing of a suit in the Federal court by Emanuel Shebar, a dry goods merchant of Aberdeen, Miss., to recover \$10,000 which, he said, he had deposited with the Claffin Company on the understanding that he was to receive

the understanding that he was to receive 4½ per cent. Interest and could have the money any time he wished.

The receivers have advertised a "peremptory sale" of certain goods in the Claffin store for July 13. Mr. Martindale, however, said yesterday that this sale is simply the annual July sale.

The statement of the accountants as to the assets and liabilities of the company will not be ready before next week.
